WORK EXPERIENCE

Full Stack Developer *(Oct 2025 - Present)* Interactive Media Services, Nairobi

- Developed and maintained Campaign Promotion platforms for various brands running country-wide campaigns.
- Maintained a bulk SMS dispatching system, improving its throughput to telco carriers with minimal latency.
- Data analysis of the reports generated from the NCPs over their duration, giving more insights into the outcomes for the respective clients.
- Designed system databases and architectures for multiple clients' consultations for projects and in-house projects.

Lead Developer *(Oct 2023 – May 2025)* TheLocalPro, United Kingdom

- Led the development of "LocalPro," a web platform on Nuxt and Laravel for local service providers to connect with customers.
- I collaborated in implementing Laravel and SQL to develop a scalable backend system, facilitating seamless data management and user authentication.
- I helped resolve performance issues by optimizing Nuxt components and SQL queries, resulting in a 25% improvement in app responsiveness.
- Improved the SEO efficiency of the system and achieved a 10% increase in web crawler readability.

Full Stack Developer *(Jan 2023 – Sept 2023)* Big Brainz Solutions, Eldoret

- I developed "DigiGrade," a mobile app built in Flutter, for teachers to grade and mark students' exams and track their daily routines.
- Integrated WordPress for content management and SEO optimization, improving the visibility of client websites and driving organic traffic.

- Implemented Git version control to manage the project codebase efficiently.

Junior Web Developer (*Jan 2020 - Dec 2022)* Colorbyte, Nairobi

- I designed and developed "ColorByte Portfolio," a responsive portfolio website showcasing client projects using Vue.js and Figma for UI/UX design.
- Utilized Adobe Suite tools to create visually appealing graphics and multimedia content, enhancing user engagement and brand identity.
- Improved website performance by optimizing image sizes and implementing lazy loading techniques, resulting in a 20% reduction in page load time.
- Handled and managed the social media accounts, maintaining the online presence and interaction with potential clients for growth and credibility.

Data Clerk *(Jan 2020 - July 2020)* Crested Crane, UEA Baraton

- Assisted in the admission, organization, and storage of new student data in the system and data books.
- I collaborated with external auditors in cross-checking students' data, ensuring every record aligns and matches the standard set.
- Generated reports on enrolment trends and co-curricular performances for management's decision-making and tracking.
- I conducted regular auditing and accuracy of the stored data, maintaining the confidentiality and security regulations of FERPA & GDPR.

Graphic Designer (*Oct 2018 - Jul 2020)* Crested Crane, UEA Baraton

- Designed promotional materials for the "Crested Crane Events", including flyers, banners, and social media graphics, using Adobe Suite.
- Managed social media platforms to increase brand awareness and engagement, resulting in a 40% growth in followers and event attendance.
- Photographed "UEA Baraton Annual Sports Day" and "Cultural Week" events, creating visual content for university publications and social media.

Assistant IT Support Officer (*Jan 2018 - Aug 2022)* IT Support, UEA Baraton

- Provided IT support services, including network troubleshooting, computer repairs, and software installations for university staff and students.
- Assisted in the implementation of the "UEA Baraton Campus Wi-Fi Upgrade Project," ensuring seamless connectivity and access for all users.
- Conducted hardware and software maintenance tasks to minimize downtime and enhance system reliability.

EDUCATION

Bachelor of Science - Software Engineering - *UEA Baraton*
